

Aww, Shucks!

Yee-Haw Ya'll

Our Wild Wild West party was perfect! We shucked corn, had chow time and even a hoe down!

Our cabinet had a dobro, a banjo and even a fiddle from the 1940's!

Thank You to all that came to enjoy the party!

ONE SIZE DOES NOT FIT ALL

Here at Milton Adult Day Services, we construct our programming through the “person centered approach”. This concept focus’ on each client and their likes, abilities and interests. There are daily “clubs” for the entire group to participate in, but if an individual does not wish to participate, they can do what they choose. With our new building, this concept is very successful and we have noticed more calming behaviors and higher participation! In the end, we all come to one place where the needs are met and the clients leave tired and happy!
