7:30am to 5:00pm

All services are provided without regard to race, age, color, religion, sex, disability, national origin or ancestry.

Milton VILLAGE

Milton Village, a collaboration between Milton Adult Day Services and Alzheimer's & Dementia Services of Northern Indiana, was created in cooperation with the Netherlands-based Vivium Group. It is a revolutionary concept in care and the first of its kind in the United States. The environment provides a home- and town-like setting with less institutional style programming. Called the de Hogeweyk model, it was successfully implemented in the Netherlands prior to being adopted by Milton Village.

Milton VILLAGE

Our village is your village, too!

It Takes a Village

They say it takes a village to raise a child. The same can be said for caring for a loved one with Alzheimer's, dementia or any other cognitive condition. At Milton Village, we want our village to be your village, too!

Milton Village is a resource for anybody facing the challenges imposed by a cognitive condition – those with the condition, their caregivers, even clinicians. The collaboration between Milton Adult Day Services and Alzheimer's & Dementia Services of Northern Indiana being under one roof helps us meet the needs of anyone needing help.

For the Patient

Milton Adult Day Services is a community-based service that provides a structured setting for adults who need health, social and support services during the day. They offer opportunities for an enhanced quality of life and assure your loved one's safety.

For the Caregivers and Family

Alzheimer's & Dementia Services of Northern Indiana offers a variety of support services and education that is crucial to helping family members provide superior care to their loved ones living with Alzheimer's and related dementia.

For Professionals

The Institute for Excellence in Memory Care, part of Alzheimer's & Dementia Services, is transforming memory care by defining standards of excellence, cultivating professionals and building sustainable certification criteria for dementia care.

Milton Adult Day Services provides a safe environment for guests with dementia, Alzheimer's disease and other neurological conditions who need assistance during day time hours. It's a place where caring, warmth and compassion encourage each guest to flourish.

Our "village" provides a home- and town-like setting where guests enjoy more independence and the ability to choose the supervised activities they enjoy. Their days are fun-filled, with multiple opportunities for self expression through music, exercise, arts, spiritual time and games, all in a social setting.

We offer a vibrant program of meaningful and engaging activities designed to maintain or improve the level of functioning, giving guests a sense of self worth and success.

Milton Village has hosted many fun events for their clients and their caregivers, including:

- Nature reflections
- Karaoke
- Indoor and outdoor putting practice
- Cornhole tournament
- Sit down dance
- Pet therapy
- Lessons in Black history
- Walking club
- Book club
- Autumn scavenger hunt
- Baking club
- Gardening

Alzheimer's & Dementia Services of Northern Indiana – a program of REAL Services – is dedicated to family support, education advocacy and raising community awareness of Alzheimer's disease and related dementia.

Our Goals

- To provide support and education to caregivers. Support and education are the backbones to providing exceptional care to those with Alzheimer's or dementia. We provide many support groups, discussion groups and personal consultation opportunities. These, coupled with our educational opportunities, reinforce caregiving efforts and guide families in the best practices for providing exceptional care to their loved ones.
- To make it simple for families and loved ones to find answers to their questions and get connected to the resources they need to prepare and guide them on their journey.

For Caregivers

Alzheimer's & Dementia Services of Northern Indiana offers a variety of support services and education that is crucial to helping them provide superior care to their loved ones living with Alzheimer's and other dementias.

- Caregiver activities
- CARES ID bracelets
- Dementia Friends
- Family consultation
- Family and community caregiving
- Helpline
- Support groups
